

Wholesome Goodness from Our Family Farm

700 Lawlins Road, Wyckoff, New Jersey

from our

FAMILY

Welcome to **ABMA'S** family farm, where everything homegrown is raised with love, picked or cooked daily, and served fresh.

We've been part of the Wyckoff landscape for over 75 years. Eight decades and four generations later, we still pride ourselves on the personal touch, a relaxed and friendly atmosphere, and providing the community with the highest-quality natural produce, poultry and eggs from our farm, everyday baked goods from our "scratch" bakery, homemade specialties from our kitchen, and beautifully grown plants from our greenhouses.

Our 30-acre farm dates back to the 1790s. The homestead and out-buildings have been well-preserved, kept in their original state, and the Dutch-style barn, one of the few 200-year-old barns still standing in Bergen County, converted into our thriving retail market.

The True, Family Farm Experience

For kids, farm means farm animals, so while parents shop in our greenhouses or market, children can go over to the barnyard and pet and feed our animals.

More than anything, **ABMA'S** is about family — *ours* and *yours* — and sharing the experience of living and working on a farm with you and your children.

from our

MARKET

Now & Then

Longtime customers remember back in 1962 when they bought their eggs at a self-service stand inside the original barn. Now your family is served in our market by second, third and fourth generation Abmas.

ABMA'S FARM

Recognized by the Bergen County Freeholders for exemplary contribution to historic preservation.

Poultry & Eggs

We raise free range chickens (on high-quality grain free of hormones or antibiotics), and each morning collect fresh eggs from our resident hens: browns, from 600 Rhode Island reds; whites, from 1,400 Leghorn chickens.

Fresh Turkeys

Our homegrown turkeys have been a holiday tradition for generations. Juicy and broad-breasted, our turkeys (also hormone and antibiotic free) are available, fresh-killed, throughout the year.

Vegetables from A-Z

We offer over 80 varieties of homegrown vegetables, starting in early spring with many different types of crispy lettuces and strawberries. In summer, we grow our famous red, ripe tomatoes (including sweet Heirlooms) and the freshest sweet corn you'll ever taste. We complete the season's harvest with bins of apples, fall squash, hearty winter vegetables and much more!

From Our Bakery

We bake everything from scratch. All our ingredients are fresh and preservative-free.

We pride ourselves in baking the freshest homemade pies, muffins, breads and treats from our own homegrown farm products. Our famous pies include a very special strawberry-rhubarb pie in spring, fresh fruit pies in various combinations in summer and fresh apple and pumpkin pies in fall and winter.

From Our Kitchen

We are well known for several varieties of homemade chicken salad. Other homemade specialties include cold salads, hot soups and chicken pot pies. Our quiches are made with our own high-quality eggs. We also have lunches and dinners to go and, for children, a special "Barn Meal."

Specialty Goods

Unique BBQ and dipping sauces, salsa and a wide selection of organic salad dressings and pasta salad mixes; olive oils, balsamic vinegars and marinating sauces, ethnic breads, hard and soft cheeses and crackers, country jams and jellies and pickles and relishes.

Fruit Baskets

Any size, chocked full of fresh fruit or any of our specialty items, or made to order by your request.

Country Gifts

A wide variety of folk art and country accents for the home, including Cat's Meow® buildings of Wyckoff and signature town pottery.

**Large Selection
of Honey &
Sweet Treats.**

from our

SOIL

From Our Greenhouse

Our greenhouses, which grace the entrance to the farm, offer a huge selection of spring plants (including pansies), annuals, perennials, potted plants, potted gardens, herb gardens, container gardens, fall chrysanthemums, Christmas trees, wreaths, poinsettias and much more.

**Fresh Flower
Bouquets
Picked Daily
July-October**

From Our Fields

We seed many vegetable plants in our greenhouses to give them a head start in growth. Our fields are rich in organic matter because we enrich the soil by adding natural fertilizers. Once they have matured, our plants are transplanted into this organic, all-natural soil. A special combination of growing techniques helps control weeds, insects and fungus, allowing us to grow a superior product.

from our

BARNYARD

Petting Zoo

Kids (and moms and dads, too) love to visit our petting zoo, pet the sheep or cow, feed carrot greens to the rabbits (supervised by our staff, of course), see our baby chicks, fancy birds, goats, ponies, donkey, calf, alpaca and our llama.
